ABSTRACT

This book offers support for middle school teachers and suggestions on how they can help their students be more successful, both in the classroom and in life. Thirteen chapters cover being a teacher, the classroom, students and the challenges they face, communication, teaching, testing, working with parents, staff relations and job stress, public relations, and the future of teachers and teaching. Each chapter includes discussions on teaching, teachers, and students; discussions vary from fostering cultural awareness to grades and evaluations to interpersonal relations. Chapters also address teen behavior, environmental conditions, community activities, teaching students test taking techniques, and the parent-teacher conference. (NAV)
